

REPORT

Topic: Commerce Workshop by CA Mr. Abhishek Rai

Date: - 22nd August 2022

Time: - 11:00 a.m. to 01:30 PM

The students of classes 11th B and 12th B were given a golden opportunity to have a session with Mr. Abhishek Rai, who is renowned CA so that the students can have answers to their queries regarding Commerce & Accounts and know more about these subjects.

Sir started the workshop by giving us a small introduction of himself where we got to know that sir is in this industry since 2005 and has 17 years of experience with 3-year training. It was very interesting and inspiring to all the students. After brief introduction, he immediately got on the key points of the workshop. He made us students discern about how social media is after our dreams & how it is a time wastage for us who are the new generational students and how much of a bad influence it has on us.

Importance of time management was the key topic of the workshop which he kept reminding us throughout the workshop.

Other factors like being prepared beforehand which is also a lifesaving habit, how world works on comparisons and how only an honest man can excel and an intelligent man cannot, were exquisitely explained by sir to the students. He also told us about different career options we can look out for.

In concluding hours, he explained us how "Patience is a virtue which youngsters lack" which was an eye opener to many of us. The workshop was indeed a success as it was the push for students because they learned how to utilize the time they have in their hands and that they should start thinking about their careers wisely if they have not started yet.
